On the 75th anniversary of the end of the Holocaust, discover the inspirational biography of Anne Frank – the girl who refused to give up hope, even in the darkest of times...

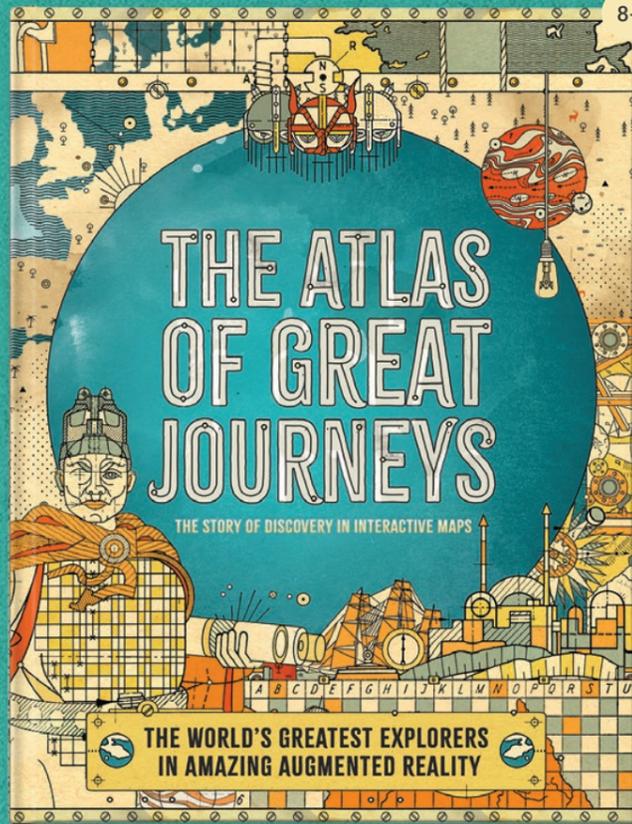

In 1942, Anne Frank bought a red-and-white-checked diary for her thirteenth birthday. Nearly one month later Anne and her family went into hiding to escape the persecution of the Nazis, and so the diary of her life in hiding began. In this book, children can learn all about what life was like in the secret Annex, set to the background of tense radio news reports and constant fear of the ongoing war, as well as reading about Anne's thoughts, hopes and dreams of a better future.

Packaged in a beautiful slipcase and featuring a red-and-white-checked folder of additional content to explore and personalise, readers can discover more about Anne, the Holocaust, and be inspired to keep their own diary.

Sir Martin Gilbert was one of the world's leading historians, the official biographer of Sir Winston Churchill and an expert on Jewish history.

Israel's tourist industry is growing. In 2018, it received 4.1 million visitors, 20% of which were from the US, 14% from Russia and 10% from France. In 2016, tourism to Israel was up 3.6%, with the main growth from China and Croatia.

Images of important historical documents are included, all of which chronological important moments in the establishment of the State of Israel.

Published to coincide with Jewish Book Week 2020.

The Story of Israel is an illuminating book that explores the nation's history. Over seventy years after Israel declared independence on 14 May 1948, the dramatic events before and since this point form an extraordinary period of history. From Theodor Herzl's efforts to establish a sovereign Jewish nation in Palestine to the 21st-century roadmap for peace and beyond, *The Story of Israel* brings the period to life as never before.

Sir Martin Gilbert's authoritative text is supplemented by more than 150 photographs and maps, as well as rare documents, including pages from Herzl's diary, identification papers of an Exodus refugee and David Ben-Gurion's copy of his Declaration of Independence speech – all of which shed light on fascinating history of the country.

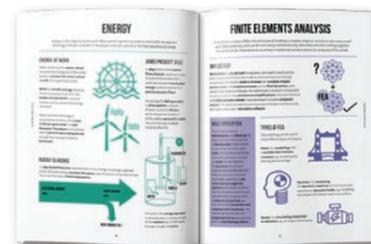

This is the ultimate guide to the turbulent history of a proud and powerful nation.

Sir Martin Gilbert was one of the world's most respected historians and a leading expert on Jewish history. He wrote over 20 books on the subject, including *The Atlas of the Arab–Israeli Conflict* (now in its tenth edition) and *Israel: A History*. He was in Israel during the October War of 1973 and came under Syrian shellfire on the Golan Heights. In 1995, he was awarded a knighthood for services to British history and international relations.

True crime and crime fiction are more popular than ever: Netflix shows such as *Making a Murderer* (over 15 million viewers per episode) and podcasts such as *My Favorite Murder* (19 million monthly downloads) are driving interest in the genre.

Serial Killer profiles over 100 of the world's most deadly serial murderers. Each profile details the means, motive and opportunity of those who kill and kill again, and asks, what, if anything, drives these killers? What was done to obtain justice for their victims, and how did they pay for their crimes? And, most importantly, what can be done to enable the prevention of these appalling crimes in future, and the capture of those who would commit them?

Ben Biggs is a journalist and former editor of *Real Crime* magazine, who has a fascination with the minds of serial killers that could be construed as unhealthy to anyone outside the true crime community.

Dior: Designer of Dreams at London's V&A was the museum's most-visited exhibition of all time with nearly 500k visitors. It sold out 19 days after opening.

2018 marked the 70th anniversary of the House of Dior.

Little Book of Dior is the beautifully illustrated story of Christian Dior's early life, the brand's inception, the triumphs of the couture collections on the catwalk and the red carpet, the brand's journey after the death of its founder, and the breathtaking designs of the house today.

Christian Dior's spectacular rise to the upper echelons of the Parisian fashion world is one of the most compelling stories of twentieth-century fashion. An art gallerist with a contemporary vision steeped in the traditions of French haute couture, Dior's debut collection in 1947 invented the New Look silhouette and revolutionized the way women dressed, shopped and saw themselves.

An exquisitely curated selection of illustrations accompanied by fashion writer Karen Homer's authoritative text presents the journey of a brand known today as the last word in opulence, drama and femininity.
